## **Menu attached**

During this phase of lockdown recovery, the following rules currently apply within the Clubhouse:

Do not enter if you have signs of a fever, a high temperature or a persistent cough or if you have had contact with any possible source of the virus.

Track and Trace still applies to all members - please swipe your membership card to gain access at front door when entering.

Please use hand sanitisers at entry doors.

1 metre social distancing applies when in club, mask to be worn when not seated and follow physical distancing guidelines throughout the clubhouse.

Please follow the one-way system that is in operation, entering through the front door.

Remain seated at all times that you are in the premises, except for comfort breaks.

Members are to refrain from moving tables and chairs within the clubhouse and tented areas.

Tented areas have maximum seating capacities, and these capacities must be observed and respected at all times.

Members' loyalty cards can once again be used to order beverages and food at bar, table service only. New members' cards are available behind the bar for collection.

Ensure that your loyalty card has sufficient funds before you order.

Bicycle racks are out of operation, please can cyclists park their bikes at the side of the building similar to last lockdown.

Club will be open to members only until further notice

No visitors or members' guests at this time unless prior approval of the board has been granted.

We expect all members to comply with safety guidelines as outlined by Scottish Government.

Kind regards the Board
