Proposed Club Enhancement - Exciting Times Ahead

Further to receipt of our formal Planning Approval from Angus Council to Upgrade and Enhance our Club Facilities, our Enhancement Committee is now working hard with our Architect and Consultants to prepare full design briefs to enable us to send out tender packages to suitable contractors – we hope to have these invites to tender out to contractors by Mid-July. We are also working on the financing of the project and developing appropriate funding support packages – we will be discussing these with members in due course.
